/ Introduction

Here is an itemised list:

- The first item.
- The second item.
- The third item.

/A Diagram

Here is a diagram:

/ Fundamental Theorem of Calculus

If f is continuous on the closed interval [a, b] and F is the indefinite integral of f on [a, b], then

$$\int_{a}^{b} f(x) \, \mathrm{d}x = F(b) - F(a). \tag{1}$$

/ Conclusion

This is a great poster format!

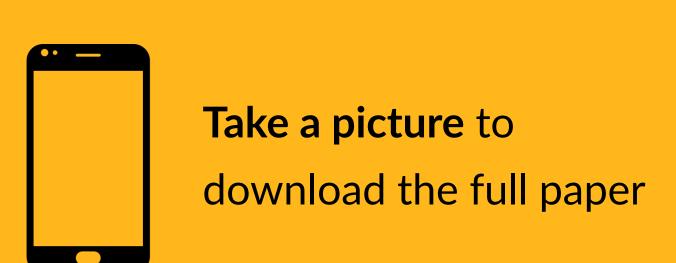

Main finding goes here,

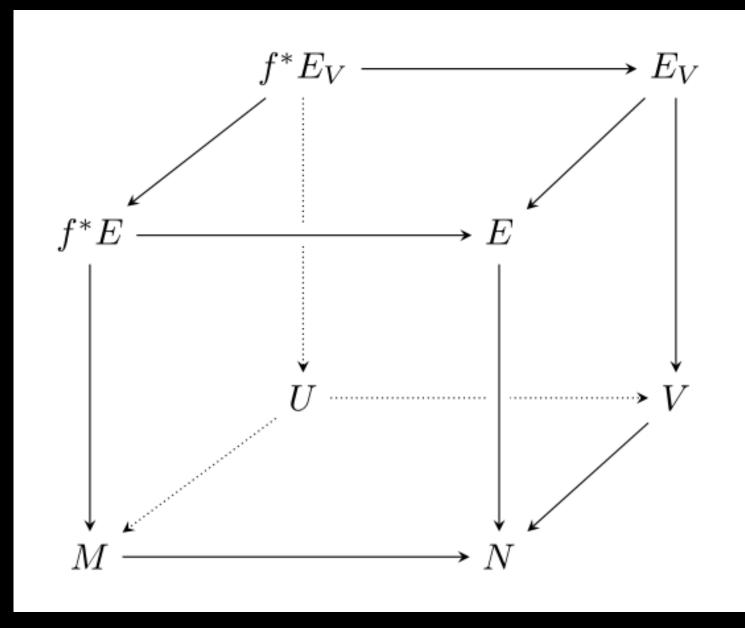

translated into plain English.

Emphasize the important words.

Here you can add supplementary material. For instance, a new diagram:
